01 / ORIENTATION

One bay. Separate places.

Somabay is the branded peninsula destination. **Almaza Bay Ras Soma** is Travco's separate development. **Marassi Red Sea** is Emaar Misr's Red Sea project; North Coast Marassi is unrelated. Mainland-shore hotels are identified individually.

The broad words "Soma Bay" on an address do not settle the development, entrance, host or facilities you can use. Name the hotel or property, then get the host's arrival instructions.

North to south

El Gouna / Hurghada / Sahl Hasheesh / Makadi Bay / Sharm El Naga / Soma Bay / Safaga. Hurghada Airport has a separate reference from the city.

What the maps mean

A reference point is not an entrance. Use the map for orientation and the host's instructions for arrival.
A line is not a route. Across-water comparisons and ruler readings are geographic distances, not roads, boat services or transfer times.
A plan is a proposal. Supplied plan images are aligned approximately in the online explorer; they do not prove surveyed land edges or delivery.

Qatari Diar: location still unresolved

Reporting places the planned project in the Makadi-Soma corridor. No verified parcel boundary or entrance is available to this guide. Sentido Naga Bay, Sharm El Naga and the mapped military-site reference remain separate existing references; no allocation has established their inclusion or exclusion.

Inside this edition

Four maps / a task index / all 61 reviewed directory listings / cash references / pharmacy contact comparison / home-care handovers / internet / arrival and shuttle planning / schools / shopping / private worksheets / source notes.

Project sources: Somabay / Travco / Emaar Misr - Red Sea

TASK INDEX / EVERYDAY ERRANDS

What do you need to do?

The chapter links below work in this saved PDF without internet. Published-provider links require a connection. Current arrangements still need checking.

Pick up groceries nearby

Start with the marina supermarket listing. If you need a particular item or delivery, ask about that item and your exact address before making the trip or placing an order.

Check: Price Choice and the Beauty Salon publish the same phone number. Confirm the business you have reached; home delivery is unresolved.

[Groceries and everyday shopping](#) / [Private shopping and delivery plan](#) / [Price Choice Supermarket](#) / [contact](#)

Do a Hurghada stock-up

Choose the retailer-listed Senzo or El Dahar branch first. Then agree the driver's stop, shopping time and return separately; a shop address is not a transfer booking.

Check: These branches are in Hurghada. City-level delivery information does not establish delivery to a Somabay home.

[Groceries and everyday shopping](#) / [Arrival and departure handovers](#) / [Spinneys Hurghada - Senzo Mall](#) / [contact](#) / [Spinneys Hurghada - El Dahar](#) / [contact](#)

Find a cash reference

Choose a bank-published reference in your part of the bay, then ask your host or the venue whether you can reach that actual machine. The guide adds eleven CIB entries, including a marina branch and town errands.

Check: The marina ATM pin needs a local check. Bank schedules do not confirm hotel or mall entry, after-hours branch ATM access, working service or your card's acceptance.

[Cash on the peninsula](#) / [Cash around the bay](#) / [Cash on a town errand](#)

Check a pharmacy errand

Use the pharmacy source comparison before contacting the published number. Confirm the counter you have reached, today's closing time and the exact item you need.

Check: Two marina pages share a phone number and publish different hours. This does not establish two separate counters, stock, delivery or clinical capability.

[A pharmacy contact with two published hours](#) / [Private household contact sheet](#) / [Pharmacy \(marina\)](#) / [contact](#)

What do you need to do?

The chapter links below work in this saved PDF without internet. Published-provider links require a connection. Current arrangements still need checking.

Arrange a home repair

Use Coral's published enquiry email for a routine repair. Describe the problem, agree access, and ask for the attendance and price before authorising work.

Check: The destination publishes office hours and an email. Phone dispatch, out-of-hours attendance and a property-specific utility escalation route are unconfirmed.

[Published home-service contacts](#) / [Private repair record](#) / [Coral Maintenance](#) / [contact](#)

Arrange laundry collection

Ask Somabay Laundry whether it can collect from your address. Agree the item count, cost and return time before handing anything over.

Check: The source says "Hotels & Delivery". Home collection, address coverage and turnaround have not been established.

[Published home-service contacts](#) / [Somabay Laundry](#) / [contact](#)

Leave your home in someone's care

Agree who visits, what they check and who can approve a repair. Use the private handover sheet to keep instructions and one outstanding job together.

Check: The guide has not verified a home-care contract, default visit interval or spending limit. Set these for your own home.

[Home care between visits](#) / [Private home-care agreement](#)

Check your home before returning

Ask for a dated condition report before travelling. Record what was actually checked, what needs work and whether reported completion has been reviewed.

Check: A clean room is not a check of water, electricity or equipment. The blank report does not prescribe shutdown or startup settings.

[Private owner condition report](#) / [Owner handover and departure](#)

Get ready for a working week

Identify the service behind your router, the account holder and the renewal arrangement. Test the room where you will work, using the guide's private connection sheet.

Check: National operator products do not establish building coverage, indoor performance or local support. No address-specific connection has been tested.

[Internet and a working week](#) / [Private home connection record](#)

What do you need to do?

The chapter links below work in this saved PDF without internet. Published-provider links require a connection. Current arrangements still need checking.

Arrange an arrival or guest pickup

Settle three handovers: pickup, entrance and keys. Give your guest the exact venue or home address and a contact who will be available at the arrival time.

Check: An airport transfer, peninsula entry and key collection are separate arrangements. The guide does not confirm a fare or driver's entry permission.

[Arrival and departure handovers](#) / [Private guest arrival sheet](#)

Plan a shuttle trip and the return

Read the published daytime shuttle description, then settle your actual pickup and return. The schematic helps explain the named stops; it is not a road route or live timetable.

Check: Residential pickup eligibility, evening service and live departures remain unconfirmed. Arrange the return before setting out.

[Daytime shuttle schematic](#) / [Arrival and departure handovers](#)

Plan a school or nursery week

Compare the school-published Somabay programmes, then ask admissions about your child's class, total fees, classroom times and the journey from your home.

Check: Published age or grade ranges are not an offer of a place. GISS's intake inconsistencies and unknown bus routes remain visible in the comparison.

[Schools and childcare](#) / [GEMS International School Somabay](#) / [contact](#) / [Kompass Kindergarten Somabay](#) / [contact](#) / [Kompass Primary School Somabay](#) / [contact](#)

Utility escalation and parcel handovers remain property-specific gaps. Agree your exact contact chain, permitted entry and named recipient with the host or manager before depending on an arrangement.

What do you need to do?

The chapter links below work in this saved PDF without internet. Published-provider links require a connection. Current arrangements still need checking.

Arrange a beach or facility visit

Name the venue and the facility you want to use. Ask separately about admission, what the booking includes and the arrangements for reaching it.

Check: Entry to the peninsula does not establish use of a hotel, beach or pool. A masterplan is not an access entitlement.

[Booking a facility or session](#)

Book a court

Open the listing for the sport you want. Ask about the date, duration, equipment and price, then confirm where the booking meets.

Check: Published booking details do not confirm an available court, resident rate or equipment hire.

[Booking a facility or session](#) / [Padel Tennis courts](#) / [contact](#) / [Tennis courts \(four grass courts\)](#) / [contact](#) / [Squash courts](#) / [contact](#)

Find a class or gym contact

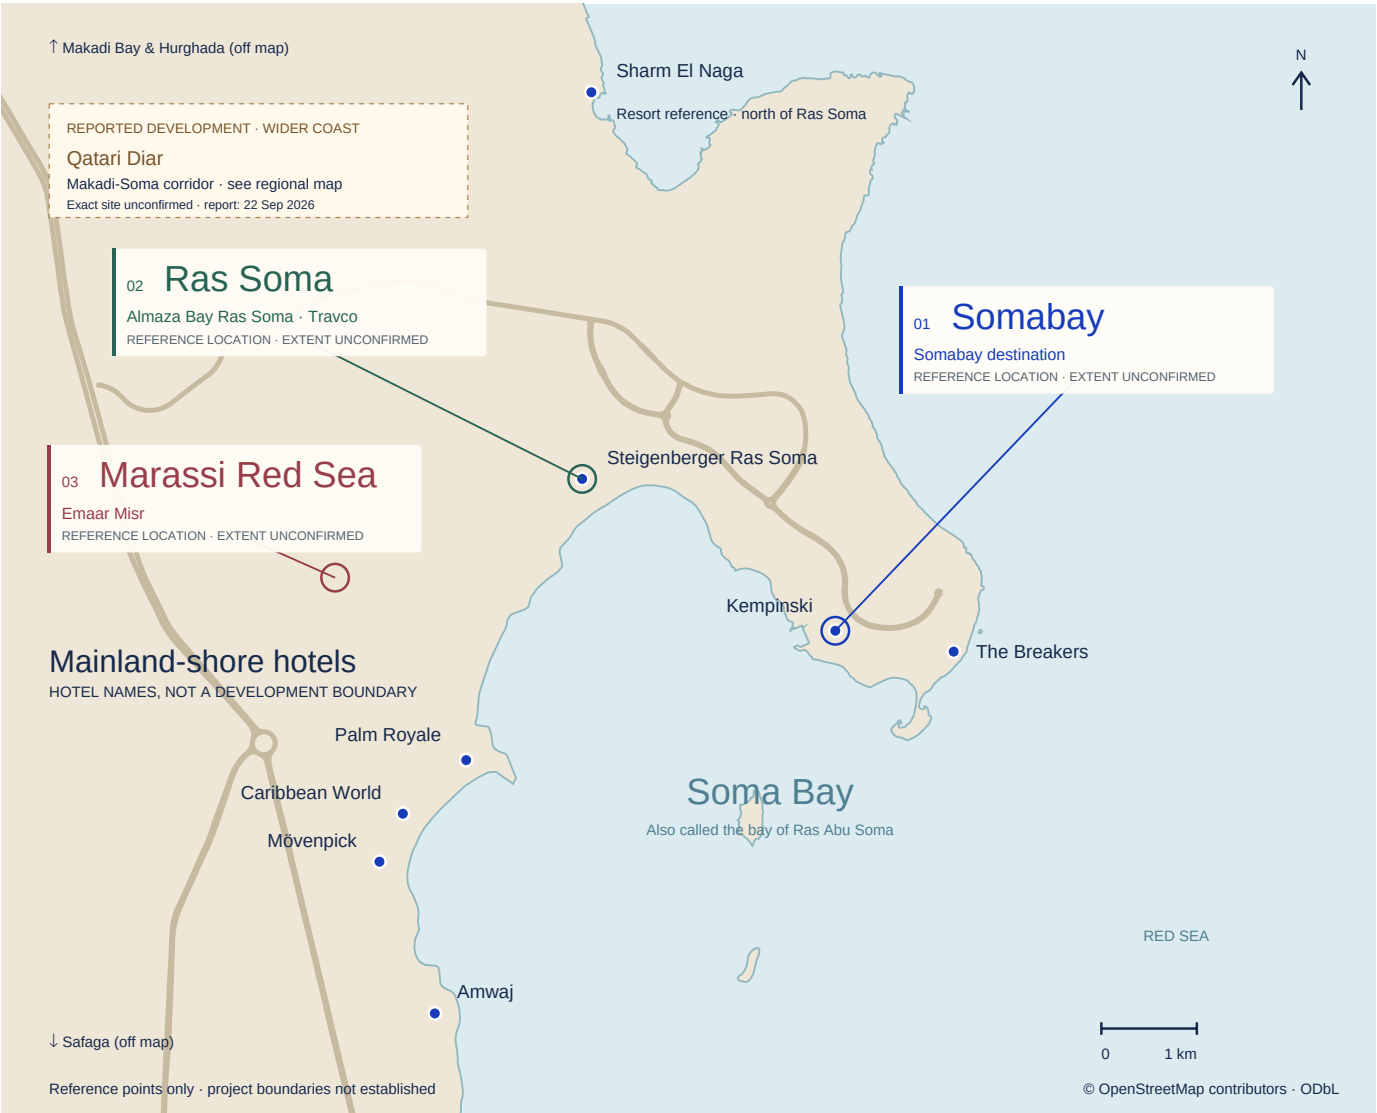

Use Bayfit's published contact for a class enquiry, or read the Sports Arena description for context. Ask for the current programme and admission arrangements for the facility you want.

Check: The guide has no confirmed class timetable or Sports Arena membership terms. A described sports hub is not a bookable session.

[Booking a facility or session](#) / [Bayfit](#) / [contact](#) / [Soma Sports Arena](#) / [contact](#)

MAP 01 / LOCAL ORIENTATION

Somabay and the surrounding bay.

North up. Numbered project labels are references, not parcel edges. Existing hotel dots are not gates. Geographic source dates: 17-25 September 2026. Qatari Diar has no plotted site. © OpenStreetMap contributors / ODbL.

MAP 02 / THE WIDER COAST

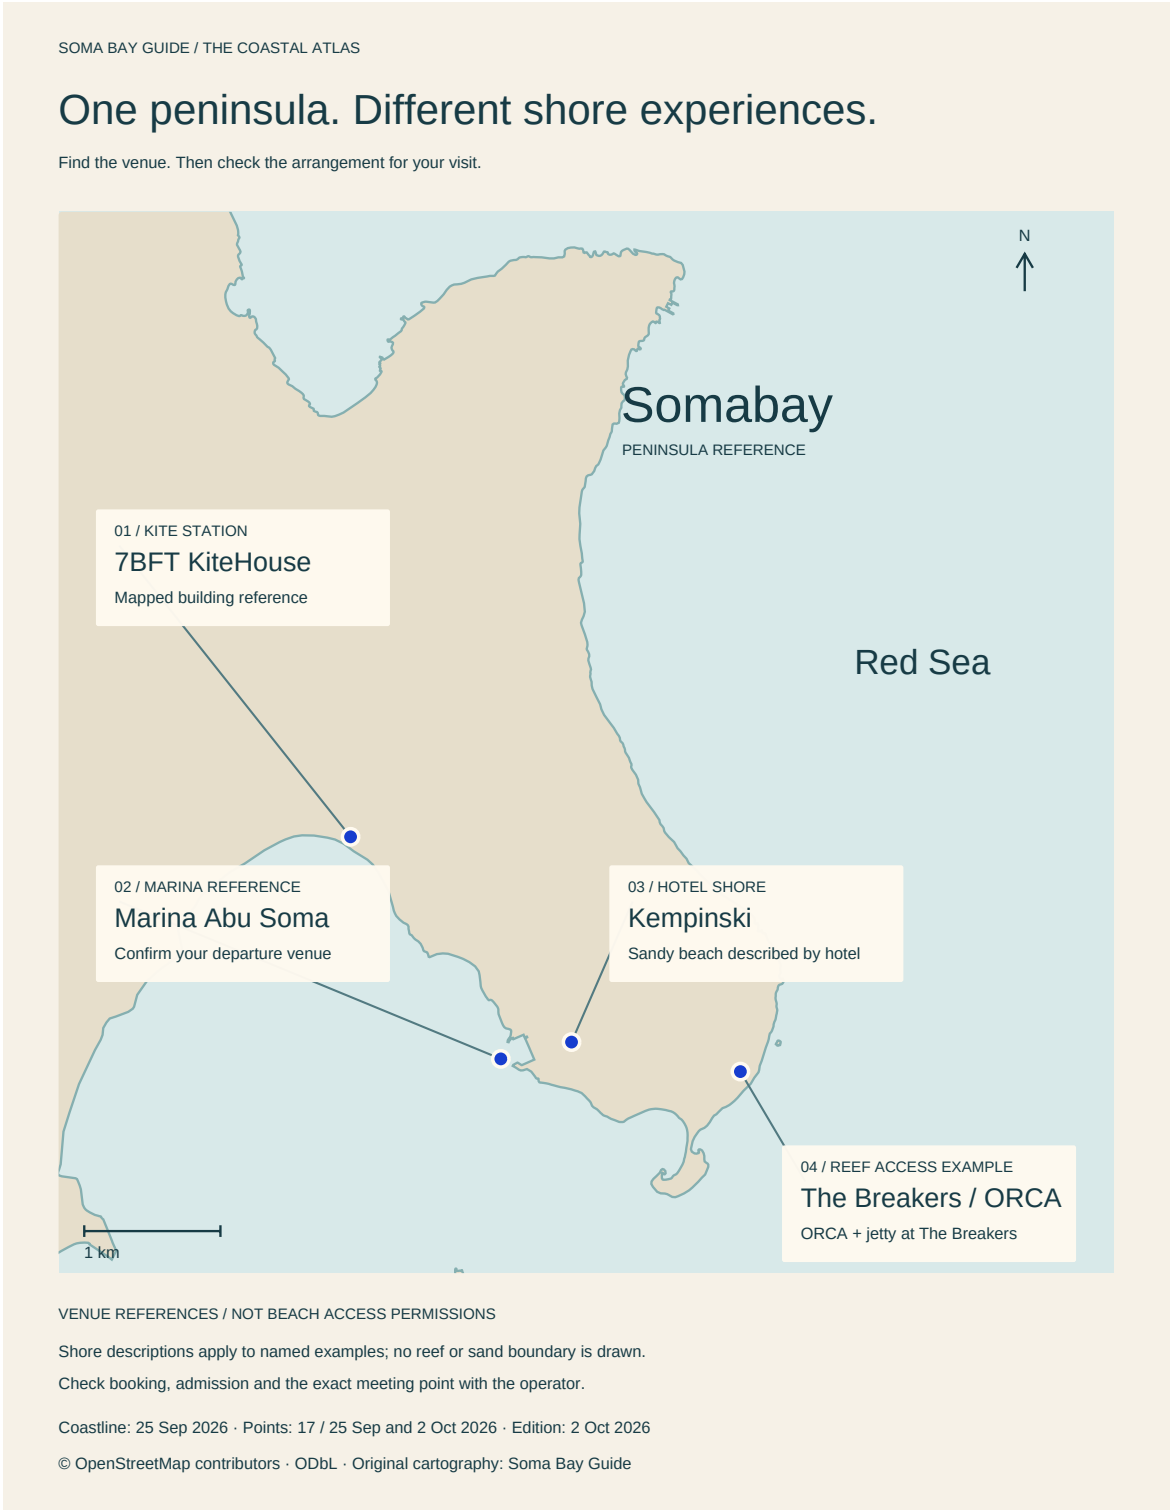

El Gouna to Safaga.

North up. Separate places and airport reference; not a transport timetable. Geographic sources retrieved 25 September 2026. Coast outline: Natural Earth; references: OpenStreetMap.

MAP 03 / CHOOSE THE VENUE

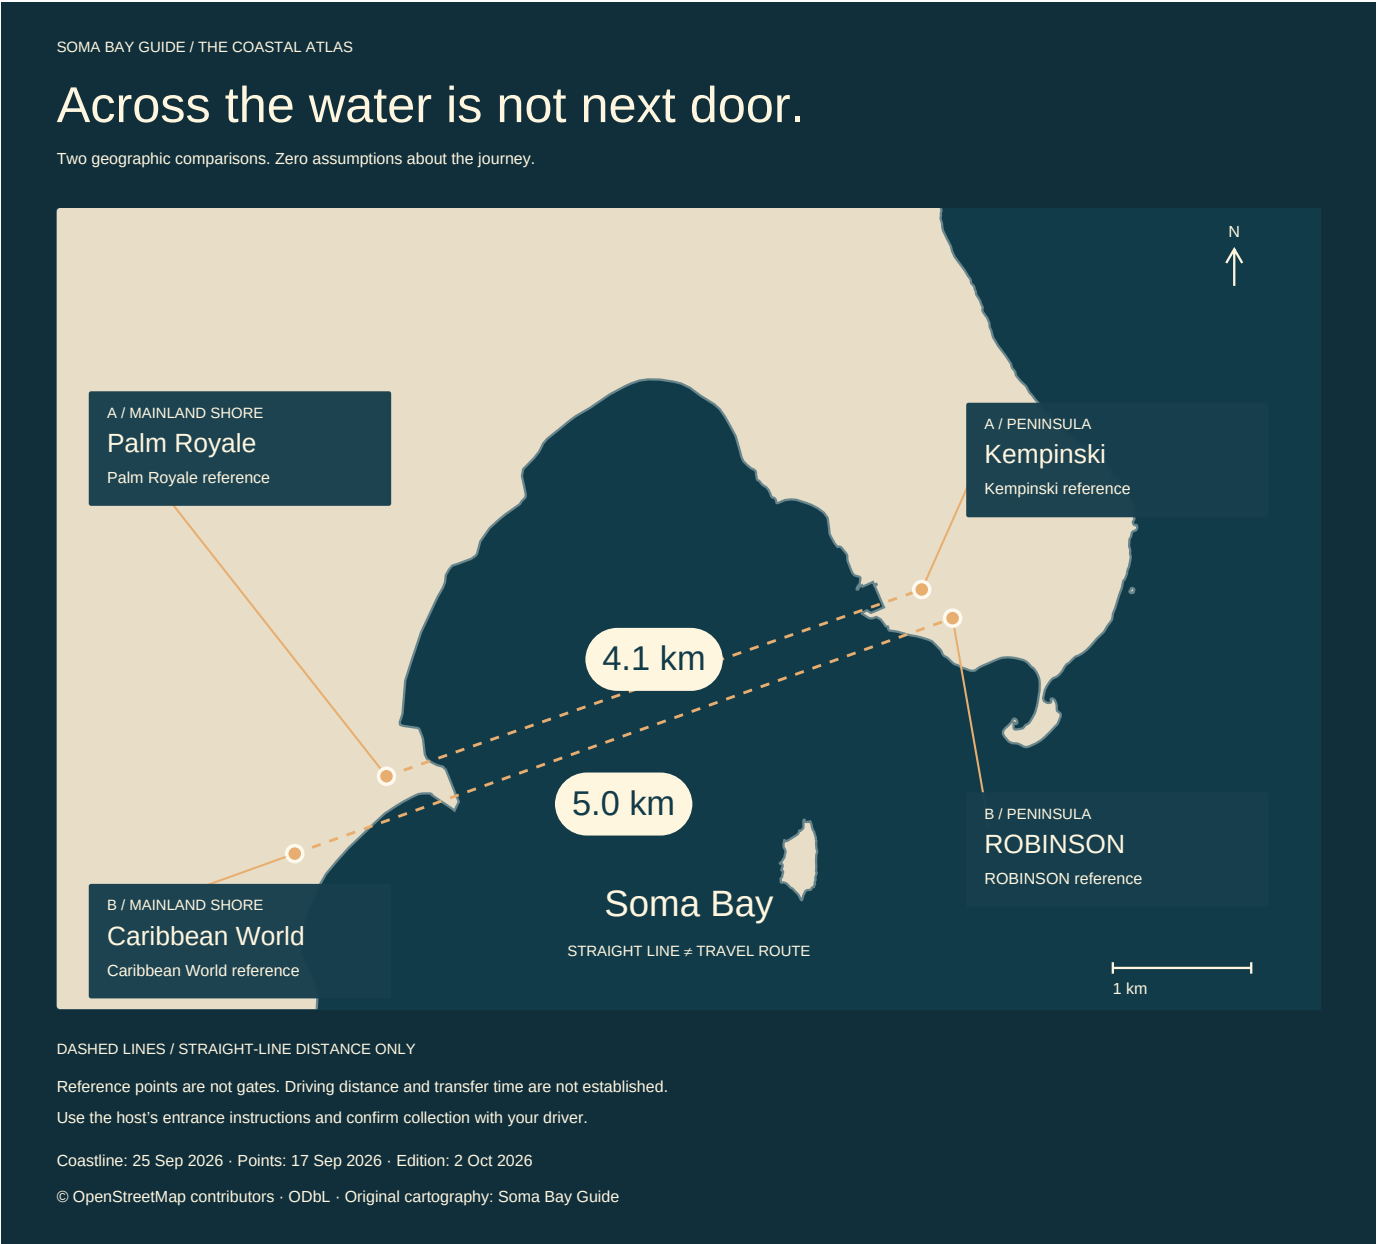

A sea view is half the story.

Kite station, marina, sandy hotel shore and reef-access hotel: different references and arrival arrangements. No continuous sand or reef boundary is drawn. Venue descriptions do not establish visiting residents' or rental guests' access.

Original illustration: 2 October 2026. Geographic inputs: 17-25 September. Operator pages retrieved 2 October; not direct confirmations. © OpenStreetMap contributors / ODbL.

Across the water is not next door.

Dashed lines compare hotel references; no boat connection, driving route or walking route is implied. Great-circle distances use radius 6,371 km and are rounded to 0.1 km. Original illustration: 2 October; geographic inputs: 17-25 September 2026. © OpenStreetMap contributors / ODbL.

Settle the everyday details.

Groceries

Price Choice is listed at the marina. Before a special trip, check stock, current hours, delivery to your address, the minimum order and payment method. The published number also appears on a beauty-salon source page; confirm which business you have reached.

Laundry

Somabay Laundry is described by the destination as "Hotels & Delivery". Home collection and its service area remain unconfirmed. Agree the price, pickup, return time and handling of delicate items; record what was collected.

Home repairs

Coral Maintenance lists AC, plumbing and electrical work. Before attendance, agree the problem, call-out fee, scope, approval limit and access arrangements. A routine enquiry does not establish an out-of-hours response.

Transport and facility access

Hopper lists carts, bikes and a taxi service; settle the current rate, collection point and return. Check evening transport directly. A peninsula arrival arrangement, restaurant booking and use of a hotel's facilities are separate questions.

Before leaving the home empty

Agree who holds keys, how often someone will attend, how faults will be reported and who can approve spending. Follow the manager's and manufacturers' instructions for the specific home; this guide does not prescribe shutdown settings.

Contacts and source-review dates appear in the directory below. Published details have not been confirmed directly with the businesses. The blanks on the following sheets are for your own arrangements.

03 / HOME INTERNET

Test the work, not just the Wi-Fi.

Ask who supplies the connection and manages the account. Identify whether the home uses a fixed or building-managed service, a home wireless router, or your own mobile connection. Fixed-service provision at individual Somabay buildings has not been established.

Check a router before moving it

Vodafone describes first-location activation and a location-change procedure. WE Air includes a home-zone step. Orange describes DSL and home 4G without a landline. These are national product descriptions, not confirmation of availability or performance at your address. Check your actual product and permitted location.

Make a useful test record

Use the room and device you will work from. Note date, local time, Wi-Fi or mobile data, and other use of the connection. Try your normal call software, screen sharing and a representative upload. Repeat at another relevant time. Record failures as well as speed-test results.

NTRA describes a Wi-Fi/mobile-data speed test and an operator quality map in My NTRA. The app and current Soma Bay map detail have not been tested by the guide. Regional information does not replace a room-level check.

Arrange the fallback and support

Test the separate mobile connection with home Wi-Fi disconnected on the test device. Agree who renews the package, pays for additional use and reports a fault. Keep passwords and account credentials outside these worksheets. A test under one set of conditions does not guarantee future service.

Sources reviewed 3 October 2026; source publication dates not stated. No local speed ranking or 24-hour support promise is made. Official links and the full research limits are in [Internet and working here](#).

PRIVATE WORKSHEET / COMPLETE WITH YOUR HOST

Your connection record.

Keep the completed sheet private. Do not enter passwords, account credentials or identity-document details. This is a planning record, not a performance certificate.

Home reference / prepared by / date

Primary provider and product / fixed, building-managed or mobile

Who holds the account / renewal date / allowance / who renews it

Test 1: date and local time / room / device / Wi-Fi or mobile

Test 1: call, screen share and upload results / what failed

Test 2: date, time and conditions / results

Fallback: separate connection / when tested / result

Fault contact / responsible person / agreed next action

ARRIVAL / THREE SEPARATE ARRANGEMENTS

From pickup to the front door.

1 / Find one another. Agree a flight-specific terminal or the exact bus stop, meeting point, contact and delay plan. The Ministry of Civil Aviation describes two passenger terminals at Hurghada Airport; this guide has not inspected them or assigned any flight to a terminal.

Somabay lists a Go Bus marina office and office hours. That does not establish the boarding or arrival stop for your ticket. Confirm the dated journey and the remaining transfer to your accommodation.

2 / Reach the right place. Give the driver the full hotel, development or building name and the entrance reference supplied by the host. A broad Soma Bay label or masterplan point is not an entrance instruction. Ask who settles entry and whether the car can continue to the building.

3 / Get inside. Agree keys or reception, a named contact and the fallback for arriving late. For a home, ask what was checked and what will be ready for the first night. Complete the private arrival sheet in this edition.

Agree the quote and the vehicle

Settle the total, currency, payment, waiting, intermediate stops and cancellation arrangements. State passengers, bags and sports equipment; ask for confirmation of any child seat or mobility-aid arrangement. Somabay publishes a 24-hour limousine service description, but that is not a car reserved for you.

Keep estimates and clocks in context

ROBINSON gives 45 and 50 minute transfer estimates, and airport distances of 45 and 54 km, in different sections. Neither distance is adopted as a measured route. Its page also says golf luggage requires its private-transfer arrangement and that its resort clock may differ from local time. These particulars apply to that resort, not the whole coast.

Arrange the return

Agree the collection point, contact, bags and key return before departure. Use the airline's current requirements and the driver's estimate for your own journey. No universal airport buffer, live vehicle availability or evening service is confirmed.

Official sources read 3 October 2026; publication dates not stated. No operator contact: Ministry airport profile / Go Bus office / Somabay Limousine / ROBINSON club details.

PRIVATE WORKSHEET / COMPLETE WITH YOUR HOST

Your arrival details.

This sheet is not an entry permit. Arrange entry with the host; keep personal details private. Do not enter access codes, Wi-Fi passwords or identity-document details.

Property / address / full development or hotel name

Arrival date and time / named host or manager / phone

Entrance / agreed entry arrangements / who will meet you

Keys / late-arrival plan / second contact

Driver / phone / pickup point / agreed fare and payment

Urgent property contact / essentials for the first night

Departure / key return / return transfer

SOMA BAY GUIDE / PUBLISHED SERVICE SCHEMATIC

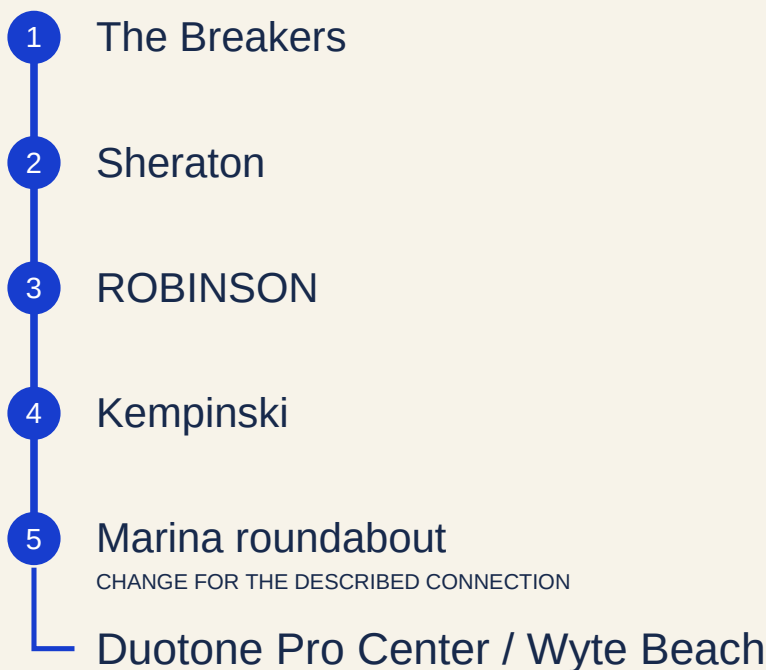

The daytime shuttle.

Stop order only. Not a geographic map or live timetable.

10:00-18:00

About every 15 minutes

Described as free by Duotone

Return in the opposite direction described. Check where to board.

SEPARATE / CENTRE GUEST PICKUP

09:30-18:00 · By appointment

Described for Duotone Pro Center guests.

Arrange with the centre; not an extension of the route above.

For the evening, agree your own return.

The closing hour is not a last departure from every stop.

Source: DPC shuttle page · Read 3 Oct 2026 · Publication date unknown

Current operation, owner eligibility and last departures unconfirmed.

DPC-SOMABAY.COM / MORE / ASK-US / SHUTTLE-SERVICE

Original service schematic / 3 October 2026. Not a geographic map, destination timetable or live departure board. Distances, road alignment and boarding coordinates are not provided.

The partner source does not confirm current operation, residential stops, owner or tenant eligibility, accessible boarding or the last departure at each stop. Transport does not establish facility access. [Read Duotone's published descriptions.](#)

SOMABAY / SCHOOL-PUBLISHED PROGRAMMES

Fit the school into your week.

These are school-published Somabay programmes, reviewed 3 October 2026. No school was contacted. A programme range does not confirm a class, a place, a bus route or an individual placement.

GISS / Pre-K to Grade 9

GEMS International School Somabay publishes this range, with IEYC, IPC and IMYC references. Its enquiry form ends at Grade 8 and mixes a 2027/2028 intake heading with a 2026 form label. Ask which class and year can actually be offered. An American Diploma pathway page does not establish current Grade 10-12 places. The school says it is working toward Cognia accreditation; completed accreditation is not established.

Contact: 010 5509 0040 / admissions@gis-somabay.com. Programme and intake page / School and accreditation wording / Diploma pathway description.

Kompass / Nursery, kindergarten and primary

The current school-owned Somabay pages now describe all three programmes. The campus headline gives ages 1 to 10 across its programmes; that is not a nursery or kindergarten cutoff. The primary page describes IPC and Year 1 to Year 6 applications for the 2026 academic year; the campus advertises 2026/2027 admissions. Keep these labels as published, rather than converting them into GISS grades.

Contact: +20 100 262 3999 / admissions@kompasseducation.org. The school links WhatsApp for this number. Admissions office hours are Sunday-Thursday 08:00-16:00, not classroom hours. Confirm the actual campus entrance; the published marina address does not identify a gate. Somabay campus / Primary programme / Admissions and office contact.

GISS / Published 2026-2027 calendar

Term starts: 6 September 2026 / 10 January 2027 / 4 April 2027. The school calendar says public holidays may change. Check the latest school version before booking around dates. [Calendar page](#) / [School calendar file](#).

Agree the day and the journey

Get the class and year, total itemised costs, classroom start and finish times, collection rules and the journey from your exact address. GISS describes school transport but no named residential route or fare is established here. The destination shuttle is a different service, not evidence of a school run. Current fees, Kompass guest packages and classroom hours remain unconfirmed.

Source publication dates unknown. Calendar and intake years are not publication dates. Earlier research snapshots retained; current school records remain source-supported, not operator-confirmed. [Read the full comparison](#).

LIVING HERE / PLAN THE SHOPPING RUN

Stock the fridge. Settle the delivery.

These are published places to contact, not confirmed stock or home delivery. Destination and retailer pages were read on 3 October 2026; publication dates were not shown. No shop was visited or contacted and no order was placed.

Price Choice / Somabay Marina

Published hours: 10:00-midnight. **Phone:** +20 128 939 7800. This number also appears on the Beauty Salon page: confirm the business before ordering. Product range, payment methods and delivery terms are not published on the listing. [Supermarket listing](#) / [Shared-number source](#).

Spinneys / Choose the Hurghada branch

Senzo Mall, Safaga Road: Sat-Wed 10:00-23:00; Thu-Fri 10:00-midnight.

El Dahar, Seven Stars Mall, Nasr Road: daily 09:00-01:00, closing after midnight.

Egyptian customer service: 16005, not an international number or direct branch line. From abroad use customer.service@spinneys-egypt.com. [Retailer branch directory](#) / [Customer-service contact](#).

If arranging an airport shopping stop, agree the branch, extra charge, waiting, bags and onward transfer. No stop or fare is included by the guide. A national catalogue does not confirm branch stock.

Home delivery / Exact address first

Spinneys names Hurghada among its delivery cities, but does not identify Somabay homes in its general FAQ. Its national terms give a 200 EGP minimum online order and a 25 EGP delivery example that varies by location, with heavy-appliance surcharges and cash/card options. These are not a Somabay quote. Check the address, slot, final charge and payment before relying on an order. [Published FAQ](#).

Separately agree gate entry and handover with the host. Name who receives chilled or frozen goods, when they will be present and the fallback for a delay. Access and cold-chain handling are not verified here.

For fabrics and curtains, Somabay lists Seda at the marina: 10:00-19:00, +20 122 649 7975. Stock, measuring, installation and delivery are not established. [Destination listing](#).

Use the worksheet on the next page. Full shopping guide: [Groceries and everyday shopping](#).

PRIVATE WORKSHEET / COMPLETE WITH YOUR HOST

The order and the handover.

Keep completed addresses and contact details private. Do not enter payment-card details, credentials or access codes. A written plan does not establish supplier acceptance or gate access.

Home reference / arrival date / prepared by

Needed on arrival / first breakfast / what the host provides

Buy after checking the kitchen / fridge ready / equipment and sizes

Exact brand and quantity / substitutions approved or not allowed

Supplier and branch / order reference / stock and address acceptance

Agreed total, currency and payment / delivery charge / slot

Entry and handover / named recipient / meeting point / contact

Delay fallback / who checks the receipt and received items

CASH / SOMABAY PENINSULA

The marina and hotel references.

CIB locator read 3 October 2026 / source publication date not shown / no operator contact or transaction. Selected references only; not a list of every bank or machine.

A branch schedule is separate from ATM access. A bank-listed 24-hour machine does not confer hotel entry or prove it is working. Use the names below to ask your host which actual machine they use.

Somabay marina branch

Search CIB for **Soma Bay Br** / Branch + ATM

Bank lists Sunday-Thursday, 08:30-15:00. After-hours ATM access is unresolved.

Withdrawal listed / Deposit feature listed. Ask which entrance to use. Branch opening is separate from ATM access.

CIB entry / Bank map reference - not a verified entrance

Marina Soma Bay ATM

Search CIB for **Marina Soma Bay** / ATM

Bank lists a daily 24-hour schedule. Access and machine status are unconfirmed.

Withdrawal listed / Deposit not listed. The bank pin is close to its Kempinski pin. Exact marina placement needs a local check.

CIB entry / Bank map reference - not a verified entrance

Kempinski ATM

Search CIB for **Kempinski** / Hotel ATM

Bank lists a daily 24-hour schedule. Access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. Ask reception about entry if you are not a guest.

CIB entry / Bank map reference - not a verified entrance

ROBINSON ATM

Search CIB for **Robinson Hotel** / Hotel ATM

Bank lists a daily 24-hour schedule. Access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. The bank address uses older Abu Soma / Ras Soma wording; this hotel is grouped with the peninsula.

CIB entry / Bank map reference - not a verified entrance

Sheraton ATM

Search CIB for **Sheraton Soma Bay** / Hotel ATM

Bank lists a daily 24-hour schedule. Access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. Ask reception about entry if you are not a guest.

CIB entry / Bank map reference - not a verified entrance

CASH / KEEP THE AREAS SEPARATE

Ras Soma and the mainland shore.

CIB locator read 3 October 2026 / source publication date not shown / no operator contact or transaction. Selected references only; not a list of every bank or machine.

These references are outside the Somabay peninsula. Their bank pins are links for checking, not arrival instructions. Ask about non-guest entry before setting out.

Ras Soma

Steigenberger Ras Soma ATM

Search CIB for **Steigenberger Ras Soma** / Hotel ATM

Bank lists a daily 24-hour schedule. Access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. Separate from the Somabay peninsula. Ask the hotel about non-guest access.

CIB entry / Bank map reference - not a verified entrance

Mainland shore

Solymar Soma Beach ATM

Search CIB for **Solymar Soma Beach** / Hotel ATM

Bank lists a daily 24-hour schedule. Access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. A mainland-shore hotel reference. Ask reception about entry if you are not a guest.

CIB entry / Bank map reference - not a verified entrance

Caribbean World ATM

Search CIB for **Carrebian** / Hotel ATM

Bank lists a daily 24-hour schedule. Access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. CIB spells the listing "Carrebian"; its address names Caribbean World Resort. Check the hotel entrance.

CIB entry / Bank map reference - not a verified entrance

Mövenpick mainland-shore ATM

Search CIB for **Movenpick Abo Suma** / Hotel ATM

Bank lists a daily 24-hour schedule. Access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. The bank uses an older hotel label. Match the venue with your host before setting out.

CIB entry / Bank map reference - not a verified entrance

CASH / SAFAGA AND HURGHADA

Fit cash into the right journey.

CIB locator read 3 October 2026 / source publication date not shown / no operator contact or transaction. Selected references only; not a list of every bank or machine.

Safaga Gomla Market ATM

Search CIB for **Safaga Gomla Market** / Market ATM

Bank lists a daily 24-hour schedule. Site access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. A Safaga town reference, not a bay venue. Check the actual machine and entrance.

CIB entry / Bank map reference - not a verified entrance

Senzo Mall ATM

Search CIB for **Senzo Mall** / Mall ATM

Bank lists a daily 24-hour schedule. Mall access and machine status are unconfirmed.

Withdrawal listed / Deposit feature listed. A Hurghada shopping-trip reference. ATM hours do not establish overnight mall entry.

CIB entry / Bank map reference - not a verified entrance

Check the machine and the card

Bank features do not establish your card or account eligibility. Card acceptance, fees, transaction limits and a working cash supply remain unknown. A deposit feature is not confirmation that you can deposit into your own account.

Check the pin and the door

The marina ATM pin is close to the bank's Kempinski pin; its exact placement needs a local check. Older hotel names and road labels also need reconciling with your host. The guide has not moved these bank references or added them as verified pins to the atlas.

Bank links require internet. Do not rely on the nearest-looking dot: no nearest-machine ranking, actual entrance or admission arrangement is established here.

Host's actual machine / venue / entrance instructions / checked by and when

Entry agreed with / fallback reference / next check

ROUTINE ERRANDS / PHARMACY

One number. Two sets of hours.

Somabay's Pharmacy and Natural Pharmacy pages both give the marina and **+20 127 897 1384**. They publish different hours. It is not established whether this is one counter, a renamed listing or two counters; do not plan two stops from these pages.

Pharmacy: 08:00-midnight

[Destination page](#)

Natural Pharmacy: 10:00-22:00

[Destination page](#)

Both pages have published/modified metadata dated 10 March 2024. Re-reading them on 3 October 2026 does not confirm today's hours. The number has not been called, and the exact counter entrance is unknown.

Before a routine pharmacy trip

Confirm the counter you have reached, its actual location, today's closing time and the exact product and quantity needed. Ask about payment and any collection or delivery arrangement for your address. Stock, delivery and payment methods have not been established by this guide.

Prepare the household contacts separately

Ask the host or manager for the full property address, entrance reference, a contact available during your stay and the backup arrangement. Keep the location instructions where the people staying can find them. The private sheet on the next page records those arrangements.

A contact sheet is not a local care plan

The guide does not identify a verified local emergency department, clinical capability, ambulance dispatch or transfer time. A pharmacy listing does not establish urgent clinical care.

[Official GOV.UK Egypt getting-help reference](#) / page modification metadata 4 August 2026; reviewed 3 October. This is a separate official reference, not proof of local response capability.

PRIVATE WORKSHEET / COMPLETE WITH YOUR HOST

The address and the people.

For privately agreed household arrangements. Do not enter medical histories, prescriptions, identity documents, access codes or passwords. This is not an emergency-care plan or entry permit.

Home reference / prepared by / date / stay dates

Full address / development, building and unit reference

Entrance and location instructions / separate map or document reference

Host or manager / phone / when available / backup person

Property issue contact / agreed out-of-hours fallback

Pharmacy counter actually reached / location / phone / checked date

Opening time and item availability confirmed by / date / next check

Who keeps and shares this sheet privately / review before next stay

OWNERS / AGREE THE HANDOVER

A visit needs a record.

Name the person holding keys, the person checking the home and the person who can approve spending. They may be different people. Record the dates away, the agreed visits and how the manager reaches you if the plan changes.

1 / Agree the visit

Set the scope for this home, the next attendance date and the report deadline. Point to the manager's and manufacturers' instructions for equipment. The guide does not set a universal visit interval, shutdown procedure or startup setting.

2 / Record the finding

Ask what was checked, by whom and when. Keep unchecked items marked unchecked. A photograph can show an observed condition; it does not by itself establish that a system works. Get unresolved findings into the same handover.

3 / Approve the work

Agree the quote, scope, spending limit, access and who approves changes before attendance. An approval is not a booking and a booking is not completion. Keep one outstanding job with its next action, responsible person and due date.

4 / Review the result

Separate reported completion from reviewed completion. Ask what evidence was supplied, who reviewed it and what remains open. Before returning, request the latest dated report early enough to deal with anything affecting the first night.

The following pages give published enquiries and two blank private worksheets. Neither a worksheet nor a directory listing appoints a manager, books attendance or authorises spending.

Published home-service contacts / Home-care agreement / One repair record / Condition report

Contact first. Agree the service.

Coral Maintenance / marina

The destination lists AC, plumbing, electrical and other home services. Published office hours: **09:00-17:00**. Enquiry email: maintenance@sbtfn.net. The phone field is empty. [Coral destination page](#).

Described emergency water-valve work does not establish phone dispatch, out-of-hours attendance, price or response time. The page is not a recurring home-care agreement.

Somabay Laundry / Hotels & Delivery

Published hours: **09:00-19:00**. Phone: **+20 127 533 4995**. The destination labels its location "Hotels & Delivery". Home collection, exact-address coverage, price and turnaround remain unknown. Agree the items, collection and return before handing anything over. [Laundry destination page](#).

These two pages have modified metadata dated 10 March 2024; both were re-read 3 October 2026. Those are separate dates, and neither records a direct operating confirmation.

Somabay App / developer description

The public Google Play description covers service requests, issues, community communication, identity badges and guest invitations. The app's displayed update is **21 September 2026**; it is not a date for gate procedures or service response. [Developer listing](#).

The guide has not installed the app or tested sign-in, unit or tenant eligibility, a service request or an invitation. Ask the manager which workflow applies to your home and what to use if it is unavailable.

Keep the utility chain separate

A repair enquiry is not a confirmed water or electricity escalation route. Save the contact and out-of-hours backup for this property. Do not put login credentials, private documents or entry codes on a shared handover.

PRIVATE WORKSHEET / AGREE BEFORE LEAVING

Who visits. What gets checked.

Keep the completed sheet private. It records your arrangements; it does not create a contract, appoint a provider or approve work. Do not enter passwords or access codes.

Home reference / dates away / prepared by and date

Keyholder / checker / owner approving work / backup contact

Agreed visit dates or frequency / next visit / person attending

Check scope / technician responsibilities / unchecked items

Property instructions: document reference and date / who holds them

Report due / evidence required / missed-visit fallback

Spending limit and currency / who approves scope or price changes

Return report due / reviewer / first-night issues and fallback

PRIVATE WORKSHEET / ONE JOB AT A TIME

Keep the next action visible.

Stages: UNCHECKED / ISSUE OBSERVED / QUOTE REQUESTED / WORK APPROVED / WORK BOOKED / COMPLETION REPORTED / COMPLETION REVIEWED. Mark the current stage and keep the evidence for each change.

Home / job reference / issue location / current stage

Observed by / date / finding and evidence reference

Responsible person / enquiry route / next action and due date

Agreed scope / quote reference / amount and currency

Approval by and date / spending limit / change-approval rule

Attendance booked with / date / access arranged by

Completion reported by and date / evidence reference

Reviewed by and date / unresolved items / next action and due date

PRIVATE WORKSHEET / RETURNING TO YOUR HOME

What was actually checked?

States: UNCHECKED / ISSUE OBSERVED / WORK BOOKED / COMPLETION REPORTED / COMPLETION REVIEWED. For each item record the date, responsible person, findings, evidence and next action. A reported completion is not automatically reviewed completion.

Home reference / arrival / person preparing report / date

Cooling: state / checked by and when / evidence / next action

Plumbing: state / checked by and when / evidence / next action

Electrical: state / checked by and when / evidence / next action

Housekeeping: state / checked by and when / evidence / next action

Agree the inspection scope and spending approval before attendance. Use a qualified technician where appropriate. This is a handover aid; the guide has not inspected the home or confirmed any work.

PRIVATE WORKSHEET / CLOSE THE HANDOVER

Keys, responsibility and what remains.

Keys: named holder / arrival meeting / spare-key arrangements

Unresolved issues affecting the first night / agreed fallback

Repair authorisation / spending limit / approval contact

Departure instructions agreed with manager / appliance instructions

Visits while empty / report frequency / who reports faults

Outstanding collections, deliveries or contractor visits

Keep this sheet private. Record arrangements, not credentials. Follow instructions suited to the property. This worksheet does not establish an urgent response service or technical shutdown procedure.

FREE TIME / ADMISSION AND BOOKING

Name the visit you want.

A beach view, a map label and an owner address do not settle the facilities you can use. Ask the specific venue about the specific visit. Separate transport and admission from a restaurant, court, class or activity booking.

For a beach, pool or hotel visit

Name the venue, facility, date, number of people and whether you are residents, rental guests or outside visitors. Ask what is included, what costs extra, whether a booking is needed and where you enter. Keep the reply for that date; do not extend it to another hotel or another visit.

For a court, class or sports session

Agree the sport or class, session time and duration, price, equipment and any instruction you need. Ask where you meet, how admission is handled and what happens if the session is changed. A described sports hub is not confirmation of a bookable session.

Settle the return

Agree pickup and return independently of the facility booking. The daytime schematic is a published service description; it does not confirm your evening return or residential pickup.

Use the directory

The task index links the reviewed court and fitness contacts. Directory contacts are published references, not availability, resident rates, guest admission or membership terms. None of those arrangements has been confirmed directly by the guide.

Venue / facility or session / date and time / party

Admission and inclusions agreed with / price / entrance / return

Places and local services.

Published contacts, not verified availability. Confirm identity, current service, hours, price, admission and location before depending on a listing. Sources below are clickable when online.

METHOD / EDITORIAL INDEPENDENCE

Keep the dates in view.

Edition date: 3 October 2026. This is the preparation date of the file, not the date every source was published or every business was contacted.

Directory: 61 reviewed listings. Each entry retains its research date and links to its published sources. A source review is not an operator confirmation. Hours and price promises are omitted from the condensed directory; check the business before relying on them.

Geography: the original orientation and regional graphics are preserved. Geographic reference points and coast extracts were retrieved in September 2026. Shore and across-bay illustrations were prepared on 2 October from those dated inputs. A drawing date does not refresh the observations.

The guide and this preview

Independent publication sponsored by KÂMO Property Group. Not the official Somabay website. Sponsor support does not establish access rights, surveyed boundaries or confirmation of listed businesses.

The preview website is currently authorised until 9 October 2026, 07:35 UTC. Saved PDF content remains on your device. Website links require internet and may stop working when the preview expires. Keep completed private worksheets out of public sharing.

SOURCES / FIELD EDITION 02

A source date is not a service check.

The new chapters retain source facts already reviewed for this working preview. No call, attendance, transaction or order was made for this edition. The worksheets are blank handwriting sheets, not interactive PDF forms.

Somabay App: developer description on Google Play

Lyve Inc via Google Play / reviewed 2026-10-03

Displayed app update: 2026-09-21

What is still unknown

Cash entrance and working service / pharmacy counter identity and current hours / home-service coverage and response / utility escalation / individual school placement and journey / exact-address delivery / address-level internet performance. Use the relevant chapter to settle the actual arrangement.

Maps and independence

The five embedded map and shuttle plates retain their existing geography and service references. The guide remains an independent publication sponsored by KÂMO Property Group, not the official destination website. Approximate masterplan registration and the unknown Qatari Diar parcel remain online research limits.

The saved PDF works offline. External sources and website links need internet; this edition does not save satellite tiles. The temporary preview is currently authorised until 9 October 2026, 07:35 UTC.
